ROYAL SUGAR SA Announcement: 2020 Pricing Policy for Sugar Beet

Thessaloniki, Greece - 17 February 2020

Royal Sugar SA is pleased to announce the pricing policy for the cultivation and purchase of sugar beet in 2020. Following international standards, Royal Sugar's purchase price of beet will be directly related to the highest quality of beet, namely:

Beet Sugar content (Pol)	Beet price (€/tn)
12	22,00
13	27,20
14	31,48
15	34,86
16	36,50

Note: The above prices do not include VAT

The above prices apply to the delivery of sugar beet to the Serres factory where they will be processed.

Sugar beets with a sugar content below 12 pol will be paid the lowest price.

Royal Sugar, consistent with its commitments, offers an attractive price and invites growers to support the national plan to revive sugar production in our country.

Interested growers are kindly requested to come to the Serres plant, as the seed sale begins on 18/02/2020 at the Serres plant.

All growers will be able to join the bond farming program in collaboration with the Cooperative Bank of Central Macedonia.
